

# What Can I Do With This **Ohio State** Major?

Bachelor of Science in Architecture

## Architecture

Austin E. Knowlton School of Architecture

The Bachelor of Science in Architecture (BS ARCH) degree combines a general liberal arts education with concentrated studies in architecture. As such, students receive a rigorous intellectual training in the sciences, the humanities, and the arts, as well as a direct, hands-on approach to synthesizing this knowledge in the architectural design studios. The BS ARCH program instills a broad cultural awareness and, most significantly, the ability to act upon this awareness. The degree provides students with a strong educational foundation for not only the profession itself but also for the other arts, business, and public service. <sup>i</sup>
