This Student Guide is for use by students enrolled in University Exploration at Ohio State. While many of the policies and procedures apply more widely across the university, you should consult with your college or department of enrollment if you have questions.

As a result of semester conversion in Summer 2012, this is the last quarters-based iteration of the University Exploration Student Guide. For students who will be continuing and transitioning on semesters, and for those who begin at Ohio State on semesters, please consult the semesters version of the guide. The guide is typically updated on an annual basis at the start of the regular academic year (Autumn).
1  General Information

1.1 Exploring Majors

One of your goals as a student in University Exploration (EXP) is to determine the major you want to pursue. A good place to investigate the wide range of undergraduate majors offered at Ohio State is by talking to your academic counselor in EXP. An additional tool you can use is the EXP website. From this site, you will find a comprehensive list of OSU majors, links describing each major in detail, and exercises to prepare you for meeting with your counselor. Consult with your academic counselor as you evaluate majors of interest, along with related opportunities.

1.2 Making an Appointment with Your Academic Counselor

a. Your academic counselor can be seen by appointment only. Counselors book up quickly during certain periods of the quarter. Plan to schedule an appointment a week or two in advance.

b. Call (614) 292-0646 or stop by 352 Denney Hall to make an appointment. Appointments cannot be scheduled via email. If necessary, phone appointments scheduled in advance are also available.

c. You should request to see your assigned counselor, but if your counselor is not available and you have urgent business, you can request to see the first available counselor.

b. If you know you cannot make it to an appointment, call as soon as possible (614) 292-0646 to cancel. This will give another student the chance to use your spot.

Tips for Meeting with Your EXP advisor

♦ Arrive a few minutes before your appointment so you can begin on time. If you are more than 10 minutes late for an appointment, the counselor may not be able to see you.

♦ Be sure to check in at the front desk of 352 Denney Hall.

♦ Know the name of the academic counselor with whom you are meeting.

♦ Come prepared to ask questions. Write them down so that you don't forget to ask something.

1.3 Student Responsibilities

♦ You are responsible for knowing your current schedule at all times, including call numbers. You can find this at BuckeyeLink.

♦ You are responsible for knowing the requirements of the curriculum you are considering or pursuing.

♦ You are responsible for knowing whether or not you are on a waitlist. You can find this at BuckeyeLink.

♦ You are responsible for checking your schedule regularly to see if you have been added to a class from the waitlist. You will not receive notification from the registrar's
office if you are added to a class and it does not change your fees. (Note: The waitlist will not add you to any classes after the first Friday of the quarter.)

♦ You are responsible for getting updated General Education and major information. The information sheets are updated frequently; requirements can be changed at any time. You must be aware of the changes. Information sheets are typically available on College websites. You can also obtain a copy by meeting with your EXP academic counselor.

♦ If you are eligible for an exemption from student health insurance, you are responsible for providing the documentation required to demonstrate your eligibility for the exemption. Please call the Student Health Insurance Office at (614) 688-7979 for information.

♦ You are responsible for checking your campus e-mail regularly. The university and its colleges and departments send official notices and information to your “name.#@osu.edu” e-mail account. EXP advisors can only send advising information to your OSU account. If you choose to have your e-mail forwarded to another e-mail account, you may not receive official Ohio State mail, including scheduling, academic progress, and graduation information. You are responsible for ensuring your e-mail account is capable of receiving “osu.edu” e-mail and for checking your e-mail account frequently. If you are having problems, contact OCIO at 688-HELP.

♦ You are responsible for knowing the repercussions of schedule changes (for example, the effects of changes on your eligibility for Financial Aid, your projected graduation date, your athletic eligibility, etc.)

♦ You are responsible for checking the prerequisites to ALL classes for which you sign up. The web registration system is not programmed to enforce all prerequisites.

♦ You are responsible for officially dropping courses you have stopped attending. Instructors cannot drop you from a course.

♦ You are responsible for understanding your fees (tuition, health insurance, etc.) and resolving issues with the appropriate office (financial aid, fees and deposits, etc.).

♦ You are responsible for knowing the university's policies, regulations, and procedures. You should be familiar with the Course Offerings Bulletin, the quarterly Master Schedule of Classes, and this handbook. The Course Offerings Bulletin and the Master Schedule are available on BuckeyeLink.

♦ You are responsible for the manner in which you interact with members of the university community. Be courteous and respectful in class, meetings, activities and when communicating via phone and email.

♦ You can also access advising resources on your own. Through BuckeyeLink you can:

  ✓ Run a degree audit report
  ✓ Run an advising report (an unofficial transcript)
  ✓ Check grades
  ✓ Schedule classes
  ✓ Check the Web for open courses
  ✓ Find your status on a wait list
  ✓ Report a change in your address or phone number
  ✓ Order a transcript or request an enrollment/degree verification
2 Majors, Pre-Majors and University Exploration Standing

2.1 Majors at Ohio State

What majors are offered at Ohio State?
View the Majors List to view the current undergraduate majors.

How can I find more information about these majors?
♦ See your University Exploration academic counselor
♦ Visit the websites provided for each major/college
♦ Visit the Colleges & Schools site for an alphabetical list of departments and majors and links directly to their websites
♦ Visit What Can I do with this Major? for information and the career options available for specific majors

2.2 Pre-Majors at Ohio State

Once you’ve narrowed your major options, learn the requirements for the Pre-Major. If you are eligible to declare, please do so as soon as possible.

2.3 University Exploration Standing: Your Timeline Towards Declaring a Major

As a student in University Exploration, you are encouraged to take active steps to explore majors of interest and to make an informed decision regarding major and career goals. It is important that you spend designated time to take targeted classes, review websites, and talk to academic counselors regarding your interests and options.

Why do I have a limited amount of time to explore majors and make a selection?
Most students want to graduate in a timely manner. Students who declare a major no later than the end of their second year of college will usually be able to graduate in a timely fashion. The sooner you declare your major, the sooner you will be able to obtain specialized advising, make connections with faculty, and begin exploring academic and internship opportunities.

How does the Program Standing system work?
Each student in University Exploration is allotted a specific amount of time to explore majors based on the number of credit hours they have earned when they enter EXP. You will be notified of your standing routinely via e-mail. Students are placed on Program Warning, Program Probation, and Program Dismissal (also see below) based on the number of available quarters remaining to explore majors.

It is important to note that you are responsible for knowing your program standing at all times. It is your responsibility to check your e-mail. Failure to view your notification does not change your standing.
Program Standing Definitions

Exploration Program Warning
♦ Serves as notice that time is moving quickly and that you should work with your counselor to choose and declare a major.
♦ A student is placed on Program Warning when the student has two more quarters to explore majors after the quarter of placement on Warning.

Exploration Program Probation
♦ Serves as notice that little time is left to choose a major, and you need to consult immediately with your counselor.
♦ A student is placed on Program Probation when the student has one more quarter to explore majors after the quarter of placement on probation.

Exploration Program Dismissal
♦ Student can no longer continue in University Exploration and must declare a pre-major or major in a degree granting college immediately.
♦ A student placed on Program Dismissal is unable to register for classes until enrolled in a degree-granting college.
♦ Program dismissal is not the same as academic dismissal from Ohio State. Program dismissed students must declare a major or pre-major to continue at OSU.

Exploration Program Standing Timeline

Students are given a limited number of quarters to explore majors based on their status as a new student or a transfer/re-deciding student. See your EXP advisor to understand how your remaining quarters will translate to semesters when we convert in Summer 2012.

New First-Quarter Freshmen **
Students who start in University Exploration as new first-quarter freshmen are allowed six (6) quarters to explore majors and move to a degree-granting unit.

Regional Campus Students, Transfer Students, and Re-Deciding Students
The amount of time allowed for regional campus students, transfer students, and re-deciding students is based upon the number of hours earned upon entry into University Exploration. See chart below:

| Entering with <30 earned hours | 6 quarters to declare |
| Entering with 30-44 hours      | 4 quarters to declare |
| Entering with 45-74 hours      | 3 quarters to declare |
| Entering with ≥ 75 hours       | 2 quarters to declare |

** Student Athletes in EXP are on a different time table—please consult with your EXP academic counselor for assistance.

Important Notes about Exploration Program Standing
• Exploration Program Standing refers to the amount of time a student can utilize to explore majors and enter a degree-granting unit.
• Classes taken Summer Quarter at OSU do not count towards the total number of quarters

• If you are not enrolled in any classes or do not pay fees for a particular quarter, that quarter will not be counted towards the number allotted.

• Exploration Program Standing is completely different from university academic standing. Exploration Program standing refers to **time** while academic standing refers to **academic performance** and **grade-point average**.
  - For example, Exploration Program Dismissal means a student has zero (0) remaining quarters in University Exploration. University dismissal indicates that a student is dismissed from the university and cannot take classes.

Please consult with your Exploration Academic Counselor if you need assistance interpreting the Program Standing system.
3 Academic Opportunities

3.1 Honors Program

Honors students at The Ohio State University are expected to engage in rigorous coursework and challenge themselves academically while maintaining a competitive CPHR. In order to apply to the University Exploration Honors program, students must have a minimum CPHR of 3.5 and an interest in developing a strong undergraduate program that involves honors courses, as well as other enriching experiences such as internships, community involvement, leadership and study abroad. Students interested in the University Exploration Honors program should meet with an honors advisor as soon as possible to discuss program requirements and expectations.

3.2 Combined Curricula & Minors

Some students wish to pursue two degrees through two different colleges. It is important to recognize that these programs often take more than four years to complete because you need to meet the degree requirements for two different majors and two different colleges.

If you are interested in pursuing this option, meet with an Exploration Counselor. Keep in mind that the colleges you are interested in may be competitive and you must meet admissions requirements for each college.

If you are interested in adding a minor:

♦ Go to the Minors List for information on the minors offered and the courses required to complete these minors.
♦ See the departmental advisor for more specific information on a minor.

3.3 Personalized Study Program

If you cannot find a particular Ohio State major that suits your academic and career goals, you can speak with an academic counselor about doing a Personalized Study Program (PSP). With the approval of a faculty advisor and an Arts and Sciences Dean, you can create a special major to focus on your particular goals.

3.4 Graduate Study

Students planning to pursue graduate study should consult early and often with faculty in the discipline of their major. Academic success in a rigorous major and exposure to research are essential qualifications for admission to competitive graduate programs.

Students hoping to compete successfully for such programs, as well as for graduate scholarships and fellowships, should begin early in their undergraduate careers to cultivate faculty with whom they will work. Frequent consultation with faculty will connect you with intellectual mentors, and participation in research will help you to identify and
define your own research interests. Such immersion in a discipline is critical preparation for the focus on research central to graduate study.

3.5 Pre-Professional Programs

Exploration Counselors can help you to work on pre-professional requirements (such as pre-law or pre-health) while you are deciding upon your undergraduate path. Once you have declared your undergraduate major, advisors will be available to assist you in applying to professional programs.

Students who are interested in pursuing pre-law, pre-health, or pre-education as an area of interest in addition to their undergraduate major should speak with a pre-professional advisor for more information.

3.6 Diversity Services

Ohio State recognizes the importance and richness of a diverse campus and a diverse global economy. We want all of our students to feel at home on our campus. And we want all of our students to have every opportunity to fulfill their academic potential. At Ohio State, diversity means choice, opportunity, and a learning environment that cultivates respect. Diversity Services provides Exploration students with activities and programs that educate, support and contribute to their personal and academic development.

3.7 Exploration Living-Learning Community

Whether you have a couple of majors in mind but aren’t completely sure which to choose or you don’t even know which classes to start with, the Exploration Living-Learning Community is a great place for you to begin during your first quarter at Ohio State. Becoming a part of the Exploration Living-Learning Community will not only pair you with other students who are discovering their academic and career aspirations, but it will also give you access to unique resources.

Through collaboration with the Exploration Advising Office, an academic counselor provides walk-in office hours in the residence halls on a weekly basis, beyond their regular office hours in Denney Hall. In addition to the convenience of academic advising, you would have access to an Exploration Resource Room that has career resources, computer software that helps you consider different careers and majors, and additional study space in your building.

The program also sponsors specific activities designed to expose you to a variety of different majors and career options for you to consider. The focus is on helping you succeed personally and academically during your time at Ohio State.

Benefits of this program include:

♦ In-hall academic advising hours
♦ Free tutoring services in math, chemistry and physics
♦ Availability of major and career decision resources
♦ Activities designed to introduce students to a variety of different majors and career opportunities
♦ Connection to faculty and staff from many different areas of campus
4 Ohio State Policies and Procedures

4.1 Freshman Forgiveness

If you receive a D+, D, or E in a class during your freshman year (before you have earned 45 quarter credit hours), you may retake the course, and the first grade will be dropped from your cumulative grade point average (the record of the original grade will remain on your transcript.) You may retake the course only once, and you must retake it before you earn 90 quarter hours. If you earn a worse grade the second time around, that grade counts, not the higher grade, and if you earn an E in place of a D or a D+, you will lose credit for the course. You can use the forgiveness rule for up to 15 credit hours. It is best to retake the course(s) as early as possible.

Please note that hours of examination (EM) credit do not count in calculating earned hours for purposes of the Freshman Forgiveness Rule; however, transfer credit hours do count. If the transfer credit hours were earned before you invoke Freshman Forgiveness, they also count towards the 45 and 90 hour markers regardless of when the hours were transferred to Ohio State. Transfer credit includes Post-Secondary Education Option (PSEO) coursework taken through a college while in high school.

Keep in mind that if you are considering applying to graduate or professional schools, or even to other colleges at Ohio State, all of your grades will be considered (including those forgiven under the Freshman Forgiveness Rule) in the admissions process, and the other unit may recalculate the original grade(s) into your cumulative GPA.

4.2 Repeating a Course

You may repeat any course once, regardless of the grade you received when you completed it the first time. If you do not qualify for the Forgiveness Rule, both grades will count in your cumulative grade-point average. Credit for the course may only be counted once in the minimum total hours required for graduation. If you wish to repeat a course more than once, you will need to meet with your academic counselor to petition for this request.

4.3 Auditing a Course

You may choose to audit a course in order to refresh yourself on the material or to learn more about a subject without wanting to earn a letter grade. Fees are assessed for auditing a course, but no credit hours are awarded. You cannot audit a course and then later take the course for a grade. Auditing a course requires the permission of the instructor and the permission of your college office, through your academic counselor.

4.4 Viewing Your Grades

The Registrar does not mail or e-mail grades to students. You can check your grades on BuckeyeLink.
4.5 How to Calculate Your Cumulative Grade Point Average (CPHR)

It is essential for you to know how to calculate your quarter point-hour ratio (QPHR) and your cumulative point-hour ratio (CPHR). In order to set academic goals, which help lead to success, it is important to understand how success is measured.

Ohio State, like most universities, grades on the four-point scale. An A is worth 4 points, a B is worth 3 points, a C is worth 2 points, a D is worth 1 point, and an E is worth 0 points. Ohio State also has a plus and minus grading system to help make finer distinctions within the A, B, C, D, E scale. The entire scale can be found below.

<table>
<thead>
<tr>
<th>Grades</th>
<th>Number of Credit Hours per Class</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>
</tr>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.3</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>C-</td>
<td>1.7</td>
</tr>
<tr>
<td>D+</td>
<td>1.3</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
</tbody>
</table>

Notes about grades:
♦ Ohio State does not offer the grades of “A+” and “D-”
♦ You earn no points for an “E,” but the hours are calculated into the point-hour ratio.
♦ Additional marks which are not included in GPA calculation are:
  • S/U = Satisfactory
  • Unsatisfactory
  • PA/NP = Pass/Non-Pass
  • EM = Examination Credit
  • K = Transfer Credit
  • R=Audit
  • I=Incomplete**

**Incomplete grades change to a final grade that will be part of your QPHR/CPHR calculation in the 6th week of the quarter. It is your responsibility to work with your instructor to understand what needs to be done to complete the course and to establish a timeline for turning in late work.

A student’s point-hour ratio is calculated by taking the total number of points earned and dividing it by the number of hours attempted for a grade. First, multiply the credit hour value of each course by the point value of the grade. For example, a five-hour course in which you earn a B (3.0) is worth 15 points. Second, total the points you have earned in all your courses. Finally, divide by the number of hours you have attempted for a letter grade. Example:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hr</th>
<th>Grade</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>English 110</td>
<td>05</td>
<td>A-</td>
<td>(5 x 3.7)</td>
</tr>
<tr>
<td>Psych 100</td>
<td>05</td>
<td>B+</td>
<td>(5 x 3.3)</td>
</tr>
<tr>
<td>Math 148</td>
<td>04</td>
<td>B</td>
<td>(4 x 3.0)</td>
</tr>
<tr>
<td>EXP 100</td>
<td>01</td>
<td>A</td>
<td>(1 x 4.0)</td>
</tr>
<tr>
<td></td>
<td>15</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

This student’s quarter point-hour ratio (QPHR) would be 3.40 (51 points divided by 15 hours attempted.) The student’s quarter point hour ratio and cumulative point-hour ratio (CPHR) would be the same, given that this is the student’s first quarter of enrollment at Ohio State.

After subsequent quarters at Ohio State, you must calculate the cumulative point hour ratio (CPHR) by dividing total points earned by total hours attempted for a
letter grade (not including S/U, PA/NP, EM, or K credit*). Using our previous example, consider the following grades as the student’s second quarter at Ohio State:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hr</th>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>History 151</td>
<td>05</td>
<td>B</td>
<td>15.0</td>
</tr>
<tr>
<td>Math 150</td>
<td>05</td>
<td>C</td>
<td>10.0</td>
</tr>
<tr>
<td>Theatre 100</td>
<td>05</td>
<td>B+</td>
<td>16.5</td>
</tr>
<tr>
<td>ASC 120D</td>
<td>02</td>
<td>A-</td>
<td>8.1</td>
</tr>
</tbody>
</table>

17 49.6

Remember, last quarter the student earned a 3.40. The QPHR for the second quarter would be a 2.91 (49.6 points divided by 17 hours equals 2.91.) The student’s cumulative point hour ratio (CPHR) would be found by dividing the total number of points earned (51.0 + 49.6 = 100.6) by the total number of hours attempted (15 + 17 = 32.) The CPHR would then be 3.14.

By earning these grades and maintaining a cumulative point-hour ratio well above the minimum standard of 2.00 required for graduation, the student in our example is considered to be in academic "good standing."

4.6 Dean’s List

Students completing a minimum of 12 graded credit hours with a point-hour ratio of 3.50 or higher for any given quarter will be named to the Dean’s List for that quarter in the college in which they are enrolled. Courses graded Satisfactory/Unsatisfactory (“S/U”) or Pass/Non-Pass (“PA/NP”) do not count toward the minimum of 12 graded hours and a grade of “U” or “NP” will disqualify you from making the Dean’s List even if you meet the numerical criteria. Dean’s List letters are emailed to the student’s OSU email account.

4.7 Academic Difficulty

When your cumulative grade-point average falls below a 2.0, or if you are not making satisfactory progress toward a degree, you are considered to be in academic difficulty. This can lead to academic warning, probation, special-action probation, or even dismissal.

If you are in academic difficulty (even if your CPHR is above a 2.0), you should see your academic counselor as soon as possible to discuss the issues that may be affecting your academic performance and for advice on how to get back on track. It is your responsibility as a student to know your academic status. Below are descriptions of the different levels of academic difficulty.

Note that students moving from other academic units become subject to the conditions used in University Exploration for each academic action and will receive notification of their academic standing and conditions.

4.7.1 Academic Warning

Generally, you will be placed on academic warning when you have initially accumulated between 0.1 and 14.9 deficiency points. You will receive an e-mail informing you of your status and should consult with your assigned academic counselor. Once your CPHR reaches a 2.0, you will again be in good academic standing.
4.7.2 Academic Probation
You will be placed on academic probation when you have accumulated 15 or more deficiency points. You will receive an e-mail informing you of your status and specifying the conditions of probation, including the minimum grade-point average you must achieve in the following quarter to avoid academic dismissal. You should consult with an academic counselor. Once your CPHR reaches a 2.0, you will again be in good academic standing and will be removed from Probation.

4.7.3 Probation by Special Action
You may be placed on Special Action Probation, even if you have no cumulative deficiency points and a CPHR above 2.0, when your college has determined, by a review of your grades, that you are not making satisfactory progress toward a degree. You will be sent an e-mail informing you of your status and specifying the conditions of probation, including the minimum grade-point average you must achieve in the following quarter to avoid academic dismissal.

Special action probation is also used for University Exploration students who have earned failing grades (E, EN, U, UEN) in 7 or more credits of coursework in one quarter, regardless of cumulative CPHR.

4.7.4 Academic Dismissal
Any student in academic difficulty is at risk of being dismissed from the university. There is no specific CPHR or number of deficiency points that warrants a dismissal. These decisions are made on a case-by-case basis and given serious thought. You are a likely candidate for dismissal if you are on academic probation or probation by special action and continue to accumulate deficiency points, or if you do not show significant and steady academic progress, especially in your intended major. Dismissed students will be notified of their status by letter and by e-mail.

4.7.5 Reinstatement
After being academically dismissed from the university, students can petition for reinstatement to the university after waiting for a period of three quarters. Reinstatement is not guaranteed, and simple desire to return is not sufficient support for a petition. Petitioning students need to prove they are now ready to succeed if they are allowed to return to the university. It is advisable to take academic course work at another institution during your time away from Ohio State, to demonstrate that you are capable of succeeding in quality college-level work. See an academic counselor if you are interested in attending another institution to help guide your course decisions for transfer back to Ohio State. Under the majority of circumstances, students cannot be reinstated into University Exploration. As part of their time away from Ohio State, students are encouraged to choose an attainable major of interest. Reinstatement petitions should be discussed with the college that offers the major you intend to pursue.

4.7.6 Fresh Start
If you have not been enrolled at the university 20 or more consecutive quarters (5 or more years), you may petition for the Fresh Start Rule. Students who have a CPHR under a 2.0 or who have been dismissed from the university may want to petition to use Fresh Start. This will eliminate any deficiency points that you may have earned previously and will let you start at Ohio State with a clean CPHR (0.00.)

While all courses will remain on your permanent record, only courses in which you received a C- or higher will be counted for credit. Other course work will not be counted for credit, towards any requirement, or toward graduation. You will return to Ohio State
with a recalculated Cumulative Point-Hour Ratio of 0.00. You must complete a minimum of three quarters and 45 quarter credit hours after using the Fresh Start Rule before you are eligible to graduate.

Keep in mind that if you are considering applying to graduate or professional schools, or even to other colleges at Ohio State, their admissions processes will factor in all of your grades and may recalculate the original grade(s) into your total. You must earn at least 90 hours after utilizing Fresh Start to be considered for University Honors status.

### 4.7.7 How to Calculate Deficiency Points

A student whose Cumulative Point-Hour Ratio (CPHR) has fallen below 2.00 is no longer in academic "good standing" and is considered to be in academic difficulty. One index to measure the degree of academic difficulty is deficiency points. Deficiency points are defined as the number of credit points a student whose CPHR is below 2.00 should have earned in order to have a 2.00.

Depending on the number of accumulated deficiency points, a student will be placed on Academic Warning or Academic Probation and ultimately may be academically dismissed from the university. (Remember, students can also be placed on academic warning, probation, special-action probation, or dismissal if they are not making satisfactory progress toward a degree.)

**Academic Warning Example:** A student who has accumulated **between .1 and 14.9** deficiency points is usually placed on "Academic Warning." The following example illustrates this:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hr</th>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Psych 100</td>
<td>05</td>
<td>C (5 x 2.0)</td>
<td>10.0</td>
</tr>
<tr>
<td>English 110</td>
<td>05</td>
<td>C (5 x 2.0)</td>
<td>10.0</td>
</tr>
<tr>
<td>Theatre 100</td>
<td>05</td>
<td>D (5 x 1.0)</td>
<td>5.0</td>
</tr>
<tr>
<td></td>
<td>15</td>
<td></td>
<td>25.0</td>
</tr>
</tbody>
</table>

This student has attempted 15 credit hours, earned 25 points, and would have a QPHR of 1.66 with 5 deficiency points. The reason the deficiency point total is 5 is that that student needed 30 points to attain a 2.00 and by earning only 25, fell short by 5.

**Academic Probation Example:** A student who has accumulated a deficiency point total of **15 or more** is usually placed on "Academic Probation" status. Once placed on Probation the student will remain on Probation until he or she has returned to good academic standing. Using our previous example, consider the following grades as the student's next quarter:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hr</th>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>History 151</td>
<td>05</td>
<td>D (5 x 1.0)</td>
<td>5.0</td>
</tr>
<tr>
<td>Sociol 101</td>
<td>05</td>
<td>C+ (5 x 2.3)</td>
<td>11.5</td>
</tr>
<tr>
<td>Biology 101</td>
<td>05</td>
<td>E (5 x 0.0)</td>
<td>0.0</td>
</tr>
<tr>
<td></td>
<td>15</td>
<td></td>
<td>16.5</td>
</tr>
</tbody>
</table>

This student has attempted 15 credit hours, earned 16.5 points, and would have a QPHR of 1.10 with 13.5 deficiency points for the quarter. The deficiency-point total for that quarter is 13.5, because the student needed 30 points to attain a 2.00, and by earning only 16.5, fell short by 13.5. Since the student earned 5 deficiency points last quarter, the total would now be 18.5.
Another way to calculate the student's deficiency points is to look at the student's totals after 2 quarters. The student has attempted 30 hours and has earned 41.5 points. In order to have a 2.00 CPHR, and be in "good standing," the student needed 60 points. Therefore, having earned only 41.5 points, the student has 18.5 deficiency points.

Removing Deficiency Points: Deficiency points are removed by earning more points than the minimum needed to achieve a QPHR of 2.00. Using our previous example, consider the following grades as the student's third quarter:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hr</th>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>History 152</td>
<td>05</td>
<td>C+ (5 x 2.3)</td>
<td>11.5</td>
</tr>
<tr>
<td>Spanish 101</td>
<td>05</td>
<td>B- (5 x 2.7)</td>
<td>13.5</td>
</tr>
<tr>
<td>Art Ed 160</td>
<td>05</td>
<td>B (5 x 3.0)</td>
<td>15.0</td>
</tr>
<tr>
<td></td>
<td>15</td>
<td></td>
<td>40.0</td>
</tr>
</tbody>
</table>

This student has attempted 15 hours, earned 40 points and would have a QPHR of 2.66. This time the student has earned 10 more points than needed to attain a 2.00. Therefore, the student has reduced the deficiency-point total from 18.5 to 8.5.

4.8 Code of Student Conduct and Committee on Academic Misconduct

Students who enroll at Ohio State agree to abide by the Code of Student Conduct. Each student is responsible for becoming familiar with the rules and regulations of The Ohio State University. The Office of Student Judicial Affairs has prepared the following synopsis of the Code of Student Conduct: The code exists to protect the persons, their rights and the property of the University community. The code applies to the conduct of all students and registered student organizations while on University premises; while on professional practice assignment; on assignment which is associated with academic course requirements; or while involved with a University-related activity or a registered student organization activity. There are certain types of conduct which may lead to disciplinary action against a student or student organization in addition to criminal charges in some cases.

Student Conduct also refers to academic integrity in coursework. More information and tips for avoiding academic misconduct can be found at the Committee on Academic Misconduct website.

4.9 Plagiarism

The following statement is adapted from the definition of plagiarism as understood by the Department of English. Although this statement was developed to apply specifically to the courses in first-year English composition, it is referred to widely in cases involving charges of plagiarism throughout the university. Every student is responsible for reading and understanding this statement.

"Because the purpose of university writing assignments is to improve your ability to express yourself in writing, your papers and exercises must be your own work. To submit to your instructor a paper that is not truly the product of your own mind and skill is to commit plagiarism. To put it bluntly, plagiarism is the act of stealing the ideas and/or the expression of another and representing them as your own. It is a form
of cheating and a kind of academic misconduct, which can incur severe penalties. It is important, therefore, that you understand what it consists of, so that you will not unwittingly jeopardize your college career.

Plagiarism can take several forms. The most obvious form is a word-for-word copying of someone else’s work, in whole or in part, without acknowledgement, whether that work be a magazine article, a portion of a book, a newspaper piece, material from a web site, another student’s essay, or any other composition not your own. Any such verbatim use of another’s work must be acknowledged by (1) enclosing all such copied portions in quotation marks and by (2) giving the original source either in the body of your essay or in a footnote. As a general rule, you should make very little use of quoted matter in your essays, papers, or other written work.

A second form of plagiarism is the unacknowledged paraphrasing of the structure and language of another person’s work. Changing a few words of another’s composition, omitting a few sentences, or changing their order does not constitute original composition and therefore can be given no credit. If such borrowing or paraphrase is ever necessary, the source must be scrupulously indicated by footnotes.

Still another form of plagiarism is more difficult to define. It consists of writing a theme based solely on the ideas of another. Even though the language is not the same, if the thinking is clearly not your own, then you have committed plagiarism. If, for example, in writing a theme you reproduce the structure and progression of ideas in an essay you have read, or a speech you have heard, you are not engaging your own mind and experience enough to claim credit for writing your own composition.

How then, you may ask, can I be original? Am I to learn nothing from others? There are several answers to such questions. Of course you have come to the university to learn, and this means acquiring ideas and exchanging opinions with others. But no idea is ever genuinely learned by copying it down in the phrasing of somebody else. Only when you have thought through an idea in terms of your own experience can you be said to have learned, and when you have done that, you can develop it on paper as the product of your own mind. It is your mind we are trying to train and evaluate. When, therefore, you are given a writing assignment, do not merely consult books or articles or web sites or friend’s themes in search of something to say. If an assignment baffles you, discuss it with your instructor. And if you are directed to use printed sources, in English or in other courses, consult your instructor about how to proceed. There is an art to taking notes and doing research; careless note-taking can lead to plagiarism.

Why be so concerned about plagiarism? Because it defeats the ends of education. If a student were given credit for work that is not his or her own, then those grades would be meaningless. That student’s college degree would become a mere sheet of paper, and the integrity of the university would be undetermined. To protect the conscientious student, therefore, and to guarantee the quality of an Ohio State education, the university assesses heavy penalties against those who plagiarize. By Faculty Rules, penalties for plagiarism range from an “E” grade in the course to dismissal from the university. If these penalties seem severe, remember that your integrity and the integrity of the university itself are at stake.

Finally, the university cannot prevent a student from plagiarizing, but it can make sure that every student knows what plagiarism is, what the penalties for it are, and the serious jeopardy in which it places his or her future career. Hence this statement. Read it carefully. If you do not understand it fully, consult your instructor.

IF YOU HAVE ANY DOUBTS ABOUT THE ORIGINALITY OF A PAPER YOU HAVE WRITTEN, SEE YOUR INSTRUCTOR BEFORE YOU TURN IT IN.”
5 Transfer Credit Information

5.1 Overview
When students transfer to Ohio State from another institution, they bring with them varying amounts of transfer credit. Ohio State will need to receive official transcripts in order to post transfer credit. These need to be sent to Ohio State’s Admissions Office, not to your college office. This credit will take a few weeks to be posted to your record. The grades you earn in transferred courses do not transfer to Ohio State; courses taken at another institution are designated with a “K” in the grading column. Also, your Grade Point Average (GPA) from courses taken at another institution does not transfer to Ohio State. However, some colleges will take your transfer GPA into account for the purposes of admission into a competitive major.

There are several types of transfer credit. These are outlined below.

5.1.1 Direct Equivalency
This means that the course transferred was similar enough in content that the student was awarded direct credit for an existing OSU course. If you earn direct equivalency credit for a course, it will look like this on your record:

<table>
<thead>
<tr>
<th>Department</th>
<th>Course Number</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Psychology</td>
<td>100</td>
<td>K</td>
</tr>
</tbody>
</table>

5.1.2 General Credit
General credit is awarded when there may be an equivalent course at Ohio State, but the transfer credit evaluator could not make that determination without further information.

Students have the opportunity to have general credits evaluated by the departments in order to determine if a direct equivalency exists. Until these courses are evaluated, they are not counted towards any specific requirement other than total hours towards graduation.

It is vital that you have general credits evaluated early in your college career to determine what courses you still need to take and to avoid taking a course that you may already have taken at another institution. If you earn general credit for a course, it will look like this on your record:

<table>
<thead>
<tr>
<th>Department</th>
<th>Course Number</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Psychology</td>
<td>G000.01</td>
<td>K</td>
</tr>
</tbody>
</table>

5.1.3 Special Credit
Special credit is awarded when no specific course equivalent exists at The Ohio State University. These credit hours are not counted towards any specific requirement other than graduation.* Special credit is usually used as elective hours.

*In some cases, special credit may be used to fulfill degree requirements. After students declare their major, they should contact their new college office regarding the use of special credit to fulfill degree requirements.

If you earn special credit for a course, it will look like this on your record:

<table>
<thead>
<tr>
<th>Department</th>
<th>Course Number</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Psychology</td>
<td>S000.01</td>
<td>K</td>
</tr>
</tbody>
</table>
5.1.4 Technical Credit
Technical credit is awarded for technical course work that is acceptable as undergraduate credit at The Ohio State University. Technical credit may count toward some degrees, but will not be counted towards specific degree requirements unless your degree-granting college determines otherwise.*

*In some cases, technical credit may be used to fulfill degree requirements. After students declare their major, they should contact their new college office regarding the use of technical credit to fulfill degree requirements.

If you earn technical credit for a course, it will look like this on your record:

<table>
<thead>
<tr>
<th>Department</th>
<th>Course Number</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Psychology</td>
<td>T000.01</td>
<td>K</td>
</tr>
</tbody>
</table>

5.1.5 Deferred Credit
This designation is used for course work for which you have not yet been awarded transfer credit. For a determination about whether credit will be awarded for the course, you should see the transfer credit evaluator in the appropriate department at Ohio State. Any materials and information you can provide about the course will help the evaluator in making that decision.

5.2 Transfer Credit Evaluations
Each department handles transfer credit evaluations of general credit through their own offices. Visit the Transfer Credit Coordinator list for contact information. Locate the correct department on the list and contact the designated person listed.

Remember that the application, if any, of special and technical credit to your degree will be determined after you declare your major through your degree-granting college.

If you are unsure about what credits need to be evaluated, consult with your Exploration academic counselor.
6 Scheduling Classes

6.1 Scheduling Considerations

As you plan your schedule for each quarter, consider these issues:

♦ Why are you taking the course you are scheduling? (If you don’t know, find out!)
♦ Does this course help clarify your choice of major?
♦ Is the course required for your pre-major or major you are considering? Is it a prerequisite to a required pre-major or major course?
♦ Does the course meet a GEC requirement? Talk to your Exploration Academic Counselor about the GEC requirements for specific majors.
♦ Is the course an elective? (Electives can be used to explore possible majors or minors, to complement a major or minor, to pursue a personal interest in a subject, to enhance job or life skills, to do internships, to study abroad, etc.)
♦ Is the course part of a sequence, and will you be able to proceed through the sequence in a timely way? (Many students make the mistake of taking one or two quarters of a foreign language, then waiting a year or more before taking the next course in the language. This puts them at a great disadvantage and requires extra work in order to catch up. Avoid these situations—plan how you will proceed through sequenced courses.)

6.2 Planning Your Schedule

6.2.1 Steps to Take Before Scheduling

✓ Consult your academic counselor(s) for guidance in selecting courses.
  ♦ Note: Plan to see your academic counselor well before your registration appointment. If you wait, you may not be able to get a meeting until after your registration appointment begins, and you will lose valuable scheduling priority. The planning process for scheduling for future quarters is ongoing, and much of the work can be done well in advance. The longer you wait to plan and to see your academic advisor, the more likely you will have fewer courses to choose from when you’re finally ready to schedule.

✓ Consult the Course Offerings Bulletin.
✓ Consult the Schedule of Classes to find out:
  ♦ Which courses are offered in the upcoming quarter?
  ♦ When are courses offered?
  ♦ What are the class numbers of the courses you would like to take?

✓ Plan a tentative schedule. Make sure you have backup choices in case your first-choice courses are no longer available when your registration appointment begins. If you plan to
take three courses, select three primary and three backup choices.

✓ Note your enrollment appointment time. To maximize your chances of getting into the courses you want, schedule as soon as your enrollment appointment begins.

6.2.2 Scheduling Resources

**Course Bulletin** shows:
- course descriptions, course content
- prerequisites, restrictions
- The Course Offerings Bulletin is not always reliable when it comes to the quarters when courses will be offered; always check with the appropriate department if you need to know which quarters a particular class will be offered.

**Master Schedule** of Classes indicates:
- course offerings for the specific quarter
- dates and deadlines
- information on live registration, using the Web registration system, wait listing, clearing holds

**GEC Sheets and Major Information Sheets**
- GEC & Curriculum Sheets can be obtained from your academic counselor

**Degree Audits and Advising Reports** (unofficial transcript)
- Degree Audit shows how the courses you have taken are applied to degree requirements in different majors
- Advising Reports are unofficial transcripts that show your academic history in chronological order.

**Department and College Offices and Web Sites**
- Provide information about requirements, and opportunities, etc.
- May offer course syllabi for review

6.2.3 Class Search

To see the available course offerings for a particular quarter, visit My Student Center. You can search by department name and course number to obtain information not only about what courses are offered, but also about the number of seats that remain open in the course. Courses offered in multiple sections will provide that information for all sections of the course.

The university has also produced two helpful videos demonstrating how to search for and enroll in classes. These videos review searching for classes and enrolling in classes.
In My Student Center, click on the **Class Search** tab and use the pull-down menu to select the term (quarter and year) for which you would like to schedule. Select the preferred **Term** and click **Go**.

Next, select the department name (**Course Subject**), and type in the course number for which you want to search. Click **Search**.

The result is an up-to-date listing of the sections, times, and room locations for the course you have searched. It also provides current information about whether or not the course is still open. **Don’t forget to expand the “View All Sections” area to see ALL of the available sections for a course.**
You can also search for classes using additional criteria, so if you are looking for a particular day, time, or mode of instruction, you can limit your search. Leave the **Course Subject** box empty and click on **Additional Search Criteria**.

Leave the **Course Subject** empty to search using additional criteria.

Click **Additional Search Criteria** to search by day, time, instructor, or mode of instruction.
6.3 Scheduling for Classes

You can see when you will be able to register for classes in your Student Center. Once your enrollment appointment has opened, you should schedule for classes as close to that time as possible. You will register for classes using ‘My Student Center’ in BuckeyeLink. You will log on using your Ohio State username and password.

6.3.1 Scheduling in My Student Center

Once you are in the Student Center, click on “Add a Class.”

Once you find a class you want to take, you will click select class next to the section for which you want to register. This will place the course into your ‘shopping cart’ which is the first of many steps. You can add one course at a time or many in one transaction.

To finish registering for the class you will need to move through the steps and complete Step 3: Finish Enrolling.

Click Finish Enrolling to confirm your class.
You will know that your attempt to add the course was successful because you will get a confirmation in the **Message** box below.

You can adjust your schedule by dropping courses you have already added and, if you wish, adding others.

### 6.3.2 Waitlist Instructions

- You are placed on a waitlist if you are unable to schedule a course during registration due to time conflicts, closed sections, or canceled sections. You must meet all prerequisites for the course before you can be waitlisted for the course.
- You are added into a course from the waitlist on a "first-on, first-off" basis as space becomes available that fits your schedule.
- The waitlist is section specific, so check to make sure that you are not scheduled to be in another course at the same time. If you do not leave that time slot open, you will not be placed in the course if a seat becomes available.
- Check the waitlist weekly before the quarter starts.
- Check the waitlist daily during the entire first week of classes.
- The waitlist will be active through the first Friday of the quarter.
- You should attend the first week of class if your waitlist number is low.
- It is your responsibility to know whether or not you have been put into a class.

If the section is full, you can add yourself to the waitlist by checking the "Wait list if class is full" box when adding a course.
6.3.3 Adding and Dropping Courses

Adding Courses

After your enrollment appointment begins, you can add classes (if seats are available) online through the first Friday of the quarter. Tuition and fees are due one week before the quarter begins.

After the first Friday and through the second Friday, you must have the permission of the instructor (on a Permission to Enroll form) to enter a class. This requires getting the form from the front desk of 352 Denney Hall and having it signed by the instructor. After getting the appropriate signature, you must have the form processed in 352 Denney Hall. Courses added after the second Friday are subject to late add penalty fees of $100 per class added.

After the second Friday and through the third Friday, you must have the permission of the instructor and the permission of the department chair of the course you want to take (on a Course Enrollment Permission form) to enter a class. This requires getting the form from the front desk of 352 Denney Hall and having it signed by the instructor and the department chair. After getting the appropriate signatures, you must have the form processed in 352 Denney Hall.

Courses added after the third Friday of the quarter generally require a petition. More information about the petition process, and petition forms, are available in 352 Denney Hall. To support your petition, you must have the above two signatures, as well as valid reasons for failure to timely enroll in the course.

Dropping Courses

You can drop classes online on your own during the first three weeks of each quarter. You may drop classes in the University Exploration office through the seventh Friday of the quarter. Before dropping classes, consider how this will affect both your progress toward your degree and your financial aid status (if applicable.) Please view the list below to contact the appropriate office before dropping below full-time status.

A reduction in hours due to a course drop may affect:

1. Financial aid (including scholarships, grants, loans, Consortium Agreements) (292-0300)
2. Benefits received under the G.I. Bill (292-3453)
3. A tuition reduction received when parents work for the University (292-1050)
4. Automobile insurance—if you receive discounts for being a full time student
5. Health insurance—if you need to be a full time student to be covered on a parent’s policy
6. Your residence hall contract (292-8266)
7. Your tuition waiver, if you are a university employee (292-1050)
8. Your eligibility if you are a varsity athlete—you must see your Exploration academic counselor in Denney Hall (292-0646)
9. Your visa, if you are an international student—you must see an advisor in the Office of International Affairs for approval (292-6101)

If you drop on or before the third Friday, no record of your enrollment will be recorded on your transcript. If you drop after the third Friday of the quarter, you will receive a
"W" on your transcript, indicating that you withdrew. If you have a significant number of W's on your record, it may suggest a pattern of careless enrollment.

You cannot drop classes after the seventh Friday except by petition filed in the University Exploration office. If, because of extreme extenuating circumstances occurring after the 7th Friday, you wish to request to drop a class after the seventh Friday, see an Exploration academic counselor to help you with the petition form. You will need supporting evidence (for example, proof of medical complications that will prevent you from finishing the course.) **You cannot drop after the seventh week simply because you are doing poorly in a class.**

### 6.3.4 Withdrawal from the University

Whenever you drop the last course from your schedule, you are considered to be withdrawing from the university for that quarter (not just dropping a course). You must come to the University Exploration office to complete the withdrawal request. All withdrawals from the university are noted on the permanent record with the phrase “Withdrawn” and the date of the withdrawal. If the withdrawal occurs before the third Friday, no W’s will appear on the record. W’s will appear on the record for withdrawals after the third Friday. You must file a petition to request withdrawal after the seventh Friday, as discussed in the preceding paragraph.

Please note that petitioning to drop classes or withdraw from the university should occur in a timely manner, usually within 1-2 quarters of the quarter in question. Successful petitions result in changes to the academic record but may not result in changes to tuition, fees, or refunds.
7 Resources

7.1 How to Be a Successful Student

♦ GO TO CLASS. Go to EVERY class, ALL of the time. Don't arrive late and don't leave early.
♦ Sit near the front of the classroom.
♦ Pay attention and take notes in all of your classes.
♦ Participate in class discussions. Participation is usually calculated into your final grade.
♦ Make at least two friends in each class whom you can count on to take notes should you have to miss class. Get their phone numbers and call them before the next class to find out what you missed.
♦ Review the material each night after your classes.
♦ Study in advance for your quizzes, midterms, and finals. Don't wait until the last minute.
♦ Turn in all assignments on time. Give yourself enough time to do multiple drafts and to check your work.
♦ If you have free time between your classes, do not go back to your room. Find a place on campus to study.
♦ Don’t be afraid to use office hours. Professors take note of students who are trying to succeed.
♦ Establish regular study hours. Look at studying as your job. Build time each day into your schedule for studying.
♦ Keep a calendar or planner to keep you organized. At the beginning of each quarter, write down your assignment due dates and exam dates for each class. Also write down important registration deadlines.

7.2 Time Management

Managing your time effectively is one key to academic success. University courses require hard work, and you will need to strike a balance between the demands of your course work and all of the competing demands in your life—extracurricular activities, social activities, volunteer work, employment, family obligations, and sufficient exercise and sleep to remain healthy, to name a few—that may diminish the time you will have available to succeed academically.

One useful index to help estimate the time your course work will require is the Ohio State faculty rule that establishes, approximately, the time a student should be required to spend to earn one credit hour: two hours per week outside of class and one hour in class to earn a grade of “C.” A five-hour class, therefore, should require fifteen hours per week to earn a grade of “C,” and a fifteen-hour schedule will require a commitment of about 45 hours per week. Students who expect to earn higher grades will often need to invest significantly more time in their course work.

To help you track the demands of your courses—due dates for assignments, examinations, and papers—along with the various other activities that will take you away
from your school work, we strongly recommend that you keep a calendar or planner. Careful planning will help you to use your time more effectively and to see in advance, when you can plan for them, the more stressful weeks in your schedule.

If you find you are having trouble managing your time effectively, the following web site on time management might be a useful tool to help you get started:
